

Expert Content Strategy Guide

CI: Equity

April 2026

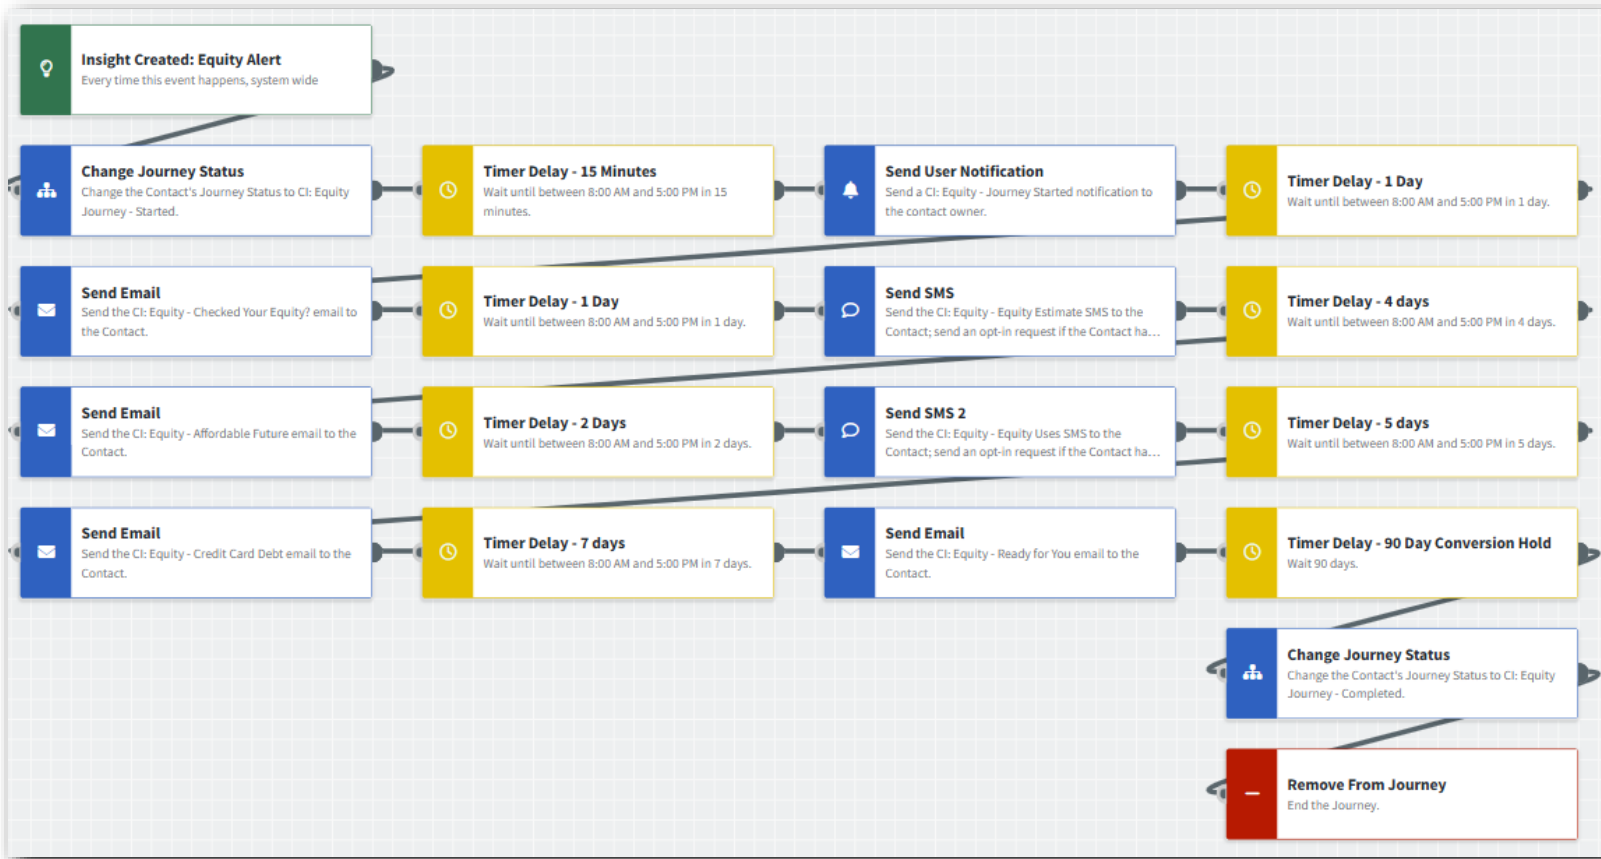

Email, SMS, User Notifications

Use customer intelligence alerts to inform customers about their home equity and the potential benefits of accessing it. The journey incorporates estimated equity dollar amount and segments contacts based on equity percentage thresholds.

For customers who wish to limit the number of times a contact can onboard this journey, leverage occurrence limits in the onboarding trigger. Find additional email options in the email gallery or leverage the HELOC Opportunities journey and reconfigure it to onboard contacts after they've been through this initial equity campaign.

*All communications should be reviewed prior to initiating the journey.

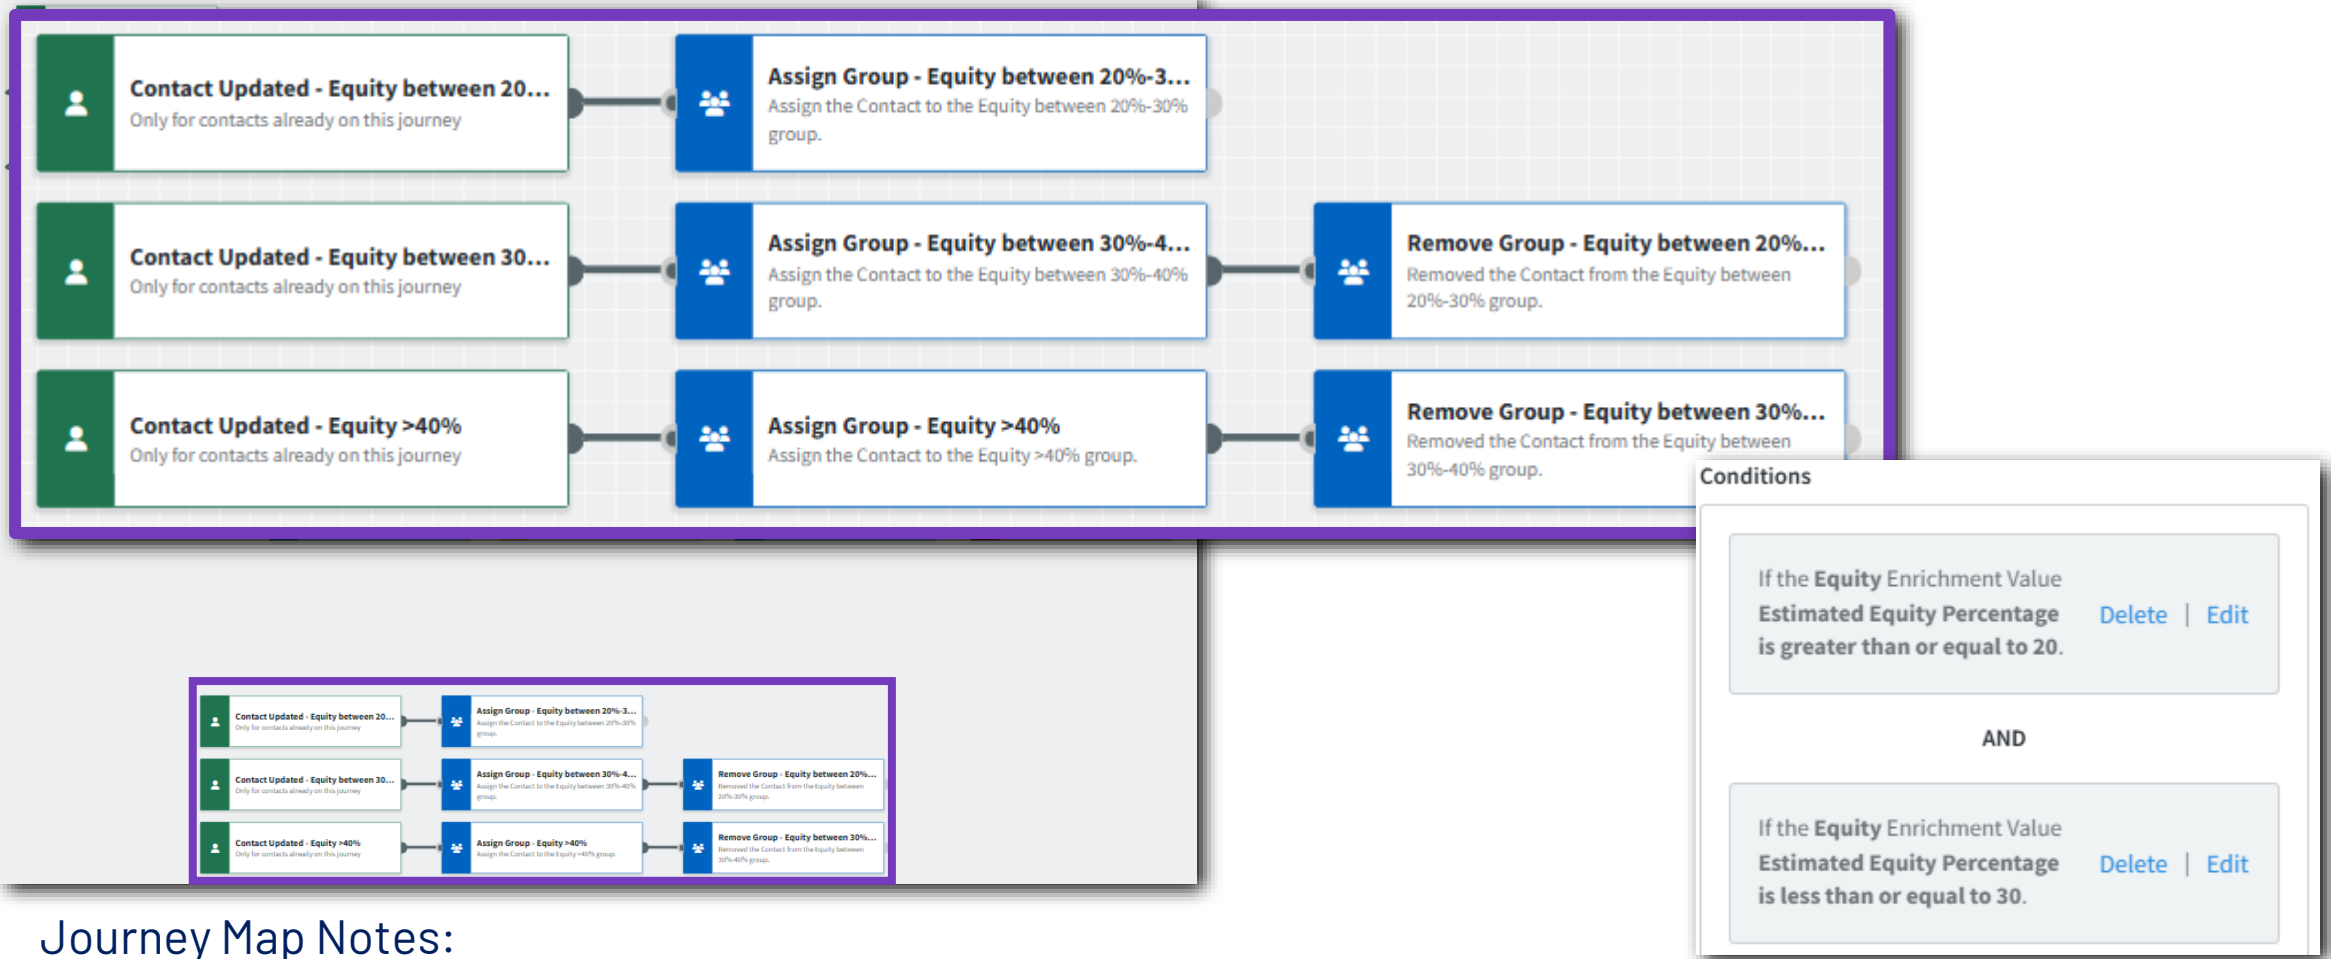

CI: Equity

Journey Map Notes:

- Keep emails that work for your organization, swap with custom, pull from the email gallery, or add these emails to your existing campaigns.
- Adjust onramps with organization specific groups and Focused View outcomes.
- Adjust occurrence limits to reduce the number of times a contact can onboard this journey. Leverage email received conditions or journey event fired configurations to add contacts to a different path or journey such as CI: HELOC opportunities.

CI: Equity

Journey Map Notes:

- Contacts are segmented using Contact Groups to easily identify equity percentage thresholds. This can be used to filter in campaign builder or other areas of the platform where groups are available. It can also be used to segment contacts on journeys to market specific products.
- Adjust thresholds by updating the trigger conditions and then updating group names to match. You can also add more thresholds to identify opportunities above 40% equity.

Hello Teddy,

I'm writing with an update about one of your biggest assets...your home. Do you know how much equity you have today? It may be a lot more than you realize.

Home equity: what it is, what you can do with it

Determining your home's equity is simple math. Subtract your mortgage balance from your home's current market value (this could be more than the price you originally paid). The difference provides you with an estimate of your equity.

Hate math? Don't worry, I've done it for you.

I obtained an estimate of your home's current equity and it adds up to around \$0.

You can tap into some of this equity to finance whatever you like, either as a line of credit or a loan.

I'll be sending you details of these options soon, but if you can't wait, call me at (888) 888-8888.

Hello {{recipient.f_name}},

I'm writing with an update about one of your biggest assets...your home. Do you know how much equity you have today? It may be a lot more than you realize.

Home equity: what it is, what you can do with it

Determining your home's equity is simple math. Subtract your mortgage balance from your home's current market value (this could be more than the price you originally paid). The difference provides you with an estimate of your equity.

Hate math? Don't worry, I've done it for you.

I obtained an estimate of your home's current equity and it adds up to around \${{recipient.enriched.equity.estimated_equity_dollars | formatNumber }}.

You can tap into some of this equity to finance whatever you like, either as a line of credit or a loan.

I'll be sending you details of these options soon, but if you can't wait, call me at {{sender.phone_cell}}.

Hi Teddy,
I have some news about your home equity options...and I think you'll like them. You may even LOVE them.

Here's the good news. Our records show that you may have a sizeable amount of equity in your home.

A current estimate of your home equity comes to around \$0.

Pretty cool, huh?

Think of what you could do with some of these funds...

- Make your home more comfortable with some renovations or improvements.
- Replace aging heating or cooling systems, so you're more comfortable all year round.
- Add an extra bathroom. No more waiting in line!
- Add a guest bedroom so weekend visitors don't have to sleep on the sofa.
- Build a tiny home, she-shed or man cave for better downtime.

No matter what you choose, you'll be more comfortable while increasing your home's value.

If you'd like to have a conversation about how you can leverage your existing equity, please contact me today.

Hello Teddy,

I'm writing to introduce some options you may have for taking control of your finances, especially if you have some credit card debt you'd like to see gone.

How to kick high interest rates to the curb.

When inflation hits, many consumers end up using their credit cards to cope with rising prices, especially when there's too much month left at the end of the money.

If you're currently working to pay off some credit card balances, your equity could be your secret weapon...one that will help you save.

Tell your home it's payback time.

You can use a portion of your home's equity to consolidate and pay off high-interest credit debt, plus other loan balances. The choice is yours!

Go for a home equity line of credit, home equity loan or cash-out refinance. Each puts you in control of your money so you can pay off debts and keep more of your monthly income.

Call me at (888) 888-8888 so I can present you with a personalized plan to eliminate debt.

Hello Teddy,

If you've had a chance to check out the emails I've sent recently, you already know how your equity can help you get ahead. But if you still have questions or are unsure, I'm here to help.

While equity-based lines of credit and loans are smart ways to banish high-interest debt, finance remodeling projects or even buy a second property, that's just a few options.

Is it time to be your own boss?

Home equity funds can help you expand your existing business, create a side hustle, and even launch yourself as a full-time entrepreneur.

Consider your home's equity as your secret weapon. It's a stash you can access 24/7.

If you have questions about your equity options, or want to get started, call me at (888) 888-8888.
